

1. Visit https://my.reefcheck.org/myaccount/reg_membership.php and select free Standard Membership of Reef Check

2. Enter required contact information including a password

3. IMPORTANT – Check the box under the Reef Check Activities Section called “I would like to download Reef Check California data from the NED online database”. Then identify which category best describes why you are using NED. In the “Comments” please describe briefly any special data requests and what types of questions you are interested in addressing with NED.

4. Press the submit button, review and confirm your entries by pressing the submit button again to finalize your registration.
5. You will receive an email confirming your registration. The email will include information about accessing the Reef Check My Account feature on the Reef Check web site.
6. Go to http://ned.reefcheck.org/login_q.php to login. You can also reach this page by going to <http://ned.reefcheck.org/> and selecting “Data Download”

7. Enter your username and password from your registration and hit the "Log in" button.
8. After you have been signed in simply click the link to download the database and save it to the desired location.
